PROFILE

Accounting graduate (BSc, University of Ghana) working as Accountant / Administrator at Deseret School of Design. I combine finance and administration with practical web development and graphic design: I build tools that turn financial and operational data into clear reports, and I design the material that presents them.

EXPERIENCE

Accountant / Administrator — Present

Deseret School of Design, North Legon, Accra

- Keep the school's accounts and financial records.
- Handle day-to-day administration of the school.

EDUCATION

BSc Accounting

University of Ghana, Legon

COURSES & LEARNING

Web development & data tools (self-directed) — Ongoing

Project-based learning

- JavaScript, TypeScript, Next.js, Node.js, SQL databases, Git.

SELECTED PROJECTS

Sika — Fintech App (in development)
Ghana fintech app: wallets, P2P transfers, mobile money and bill payments on a double-entry ledger. Next.js, TypeScript, Express, PostgreSQL, Paystack.

St. Peter's Mission Schools — Website & Staff Portal (in progress)
Role-based portal for students, attendance, grades, fees, payroll, expenses, P&L and balance sheet. JavaScript, Node.js, SQLite.

Financial Reporting Dashboard — SME Finance
Sales, expenses, net profit and cash / mobile money / bank balances for small businesses, with PDF and Excel export.

Personal Portfolio Website
Responsive, accessible portfolio designed and hand-coded in HTML, CSS and JavaScript.
